HEAVY/MODERATE

TENA Flex-i-fit™ is the first breathable and latest innovation from TENA. It combines the comfort of a two-piece system with the security of an all-in-one. It consists of a highly absorbent core with an attached fixation band over the hips. Due to this unique fixation system, TENA Flex covers less of the hips and is extremely easy to fit, even when no help is available. Now improved with Air Dry Layer™ and soft breathable Superfit™ waist belt. The wetness indicator changes from yellow to blue when it's time to change. TENA Flex fits both men and women and is available in three absorption levels and two sizes.

WIPES/WASHCLOTHS AND SKIN CARE

Barrier application is never overlooked with Comfort Shield®—the compliance is in the cloth! Each premoistened, disposable washcloth delivers one-step perineal cleansing, moisturizing, and deodorizing, while treating and protecting the skin with dimethicone. All-in-one convenience means less chance for process variation, so you can be sure a barrier is applied every time the washcloths are used. By simplifying and standardizing care, Comfort Shield® makes it easier to treat and prevent perineal dermatitis.

Have you attended one of our Clinical Education seminars?

We know that medical innovation is advancing at a faster pace than education. We also know that it is challenging to find time to take advantage of the limited education that is available. SOURCE MEDICAL can provide a solution to these issues. We host education seminars right across Canada that are conveniently arranged to meet your busy schedule. We can also facilitate detailed in-servicing on the latest improvements in products, services, and ministry guidelines. Ask your SOURCE representative for more details.

Top 5 reasons to shop on-line with www.sourcemedical.biz:

1. Fits your schedule—shop anytime it's convenient.
2. You're in control—find out where products are stocked, when they will ship, and what your price is.
3. Less browsing—key word search and a full category index help you zero in quickly on the product you want. When you find what you need, just add it to your catalogue for future reference.
4. Time savings—save the orders you place frequently and use them again.
5. Be status conscious—check the status of any order, whether you placed it on-line or not. See if it is on back order and make substitutions, and search for any order using the item number, date, shipping status, and much more.
