## BEDS

Introducing the Huntleigh Minuet®2.

Features:

- Low height of 9"
- Extends from 80" to 85"
- Reversible cherry/oak headboard
- Integrated battery backup
- Silent motor
- Effortless upright patient positioning
- Enhanced reduction of pressure, shear, and friction
- Meets falls-prevention standards set by JCAHO

## MATTRESSES

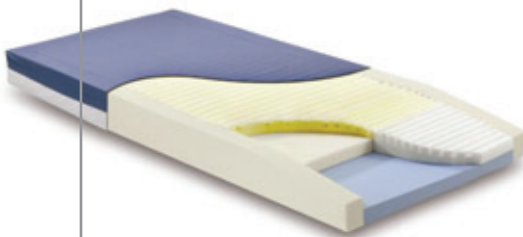

Geo-Mattress® is the brand name of foam mattresses manufactured by Span America, an exclusive partner of SOURCE MEDICAL. All models in the Geo-Mattress® Series, which includes the Max, Plus, Pro, with Wings, and Atlas, are protected by covers made from wipe-clean, moisture-proof, anti-microbial fabrics.

- The clinically proven Geo-Matt® design creates a unique anti-shearing top surface—800 individually responsive cells in distinct head, torso, and foot zones enhance therapeutic support and comfort.
- The hidden zipper design allows for easier, more thorough cleaning and superior infection control.
- The exclusive Heel Slope redistributes the load to pressure-tolerant lower legs and calves; the subtle taper reduces heel pressures while providing complete foot support. And because the foot remains level with the heart, the slope does not facilitate dependent edema. In addition, the Heel Slope slightly lowers the heel, allowing the mattress to fill in the space behind the Achilles tendon; this reduces pressure on the heel and avoids problems of skin breakdown that occur with flat mattresses.

## GEO-MATTRESS® MAX

The three-tiered zone design of Max mattresses makes them the finest Geo-Mattress® offers. The new luxurious, visco-elastic “memory foam” foot section cradles and protects the heel, while new firm perimeter bolsters provide added safety.

SPAN SINGLE LAYER FOAM MATTRESS

# Furniture & Fixtures

## GEO-MATTRESS® WITH WINGS

Models of Geo-Mattress® with Wings offer safety without compromise. The supportive raised perimeter of these popular mattresses are made of a tissue-friendly Geo-Matt® surface, rather than exposed, hard bolsters used by other manufacturers. This allows each Geo-Mattress® to provide safety for your residents—and their skin!

SPAN MATTRESS WITH WINGS

Supplier	Product No.	Description		Qty
SPAN	W7535-13	GeoMattress with Wings, 8" at Side*	75" x 35" x 6"	EA
SPAN	W7535-29	GeoMattress with Wings, 8" at SideFG*	75" x 35" x 6"	EA

\*Product is exclusive to SOURCE MEDICAL  
FG = Fire Guard

## GEO-MATTRESS® ATLAS

Atlas mattresses offer heavy-duty protection to meet the unique pressure-management challenges presented by the overweight patient: 800 support cells protect against the damaging effects of friction and shearing, and three high-resiliency layers offer progressively firmer levels of support.

SPAN BARIATRIC MATTRESS

Supplier	Product No.	Description		Qty
SPAN	A7535-13	Bariatric Mattress*	75" x 35" x 7"	EA

\*Product is exclusive to SOURCE MEDICAL

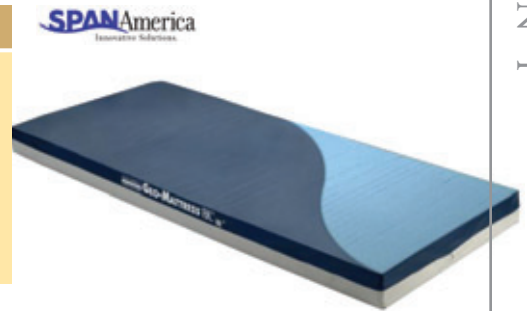

Mattress covers and coverlets available for all sizes

## GEO-MATTRESS® HC

The Geo-Mattress® HC line of therapeutic home care foam mattresses is specifically designed to aid in the prevention of pressure ulcers in the home care setting. The HC mattresses are cut from a single layer of high-quality, combustion modified foam in a fluid-proof nylon and vinyl cover. (Note: these mattresses do not include the Heel Slope feature.)

Supplier	Product No.	Description		Qty
SPAN	SP812-000	Home Care Mattress*	75" x 35" x 5"	EA
SPAN	SP810-000	Home Care Mattress*	80" x 35" x 5"	EA

## MATTRESS OVERLAYS

Geo-Matt® overlays were the first overlays specifically engineered to counter each of the major causative factors in the formation of pressure ulcers: direct pressure, shearing, friction, and the buildup of heat and moisture. More than 800 precision-cut individually articulating cells in three distinct zones—smaller cells giving support to the head and lower extremities and larger cells comforting the thighs and torso—have made it the overlay of choice in thousands of hospitals and nursing homes in North America. Their exclusive Ring of Air helps to ventilate the surface, channelling heat away from the patient, and the unique Soft Skin sleeve is vapour permeable but resistant to liquids and doesn't interfere with support surface function.

Preventative overlays are economical and comfortable, and they provide more conformance to body contours than innerspring mattresses do.

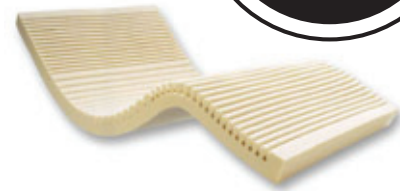

Supplier	Product No.	Description		Qty

## Top 5 reasons to shop on-line with [www.sourcemedical.biz](http://www.sourcemedical.biz):

1. Fits your schedule—shop anytime it's convenient.
2. You're in control—find out where products are stocked, when they will ship, and what your price is.
3. Less browsing—key word search and a full category index help you zero in quickly on the product you want. When you find what you need, just add it to your catalogue for future reference.
4. Time savings—save the orders you place frequently and use them again.
5. Be status conscious—check the status of any order, whether you placed it on-line or not. See if it is on back order and make substitutions, and search for any order using the item number, date, shipping status, and much more.

## TEMPORAL ARTERY THERMOMETERS

An exclusive innovation from SOURCE MEDICAL!

3 GREAT REASONS TO USE:

Temporal Artery Instant Thermometry

1. Lowest Cost System
  - Lifetime warranty
2. Highest Accuracy
  - More accurate than ear (Harvard Medical School study)
  - At least as accurate as a PA thermistor (Massachusetts General Hospital)
3. Most Liked By Patients
  - Most comfortable thermometer
  - Least invasive thermometer

## SPECIALTY MATTRESSES

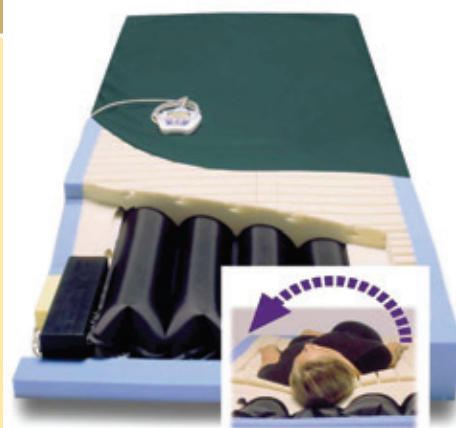

SpanAmerica's PressureGuard® models combine the effectiveness of an air floatation system with the unmatched stability and safety of a multi-component engineered foam shell. Their vapour barrier cover is fluid proof, cleanable, self-deodorizing, and antimicrobial; the Geo-Matt® design is a clinically proven anti-shearing top surface. The patented Safety Edge won't collapse under a user's weight, unlike air-only surfaces. The two-part bolster system directs the user toward the mattress centre, away from edge and siderail hazards. In addition, the patented Heel Slope reduces heel pressures while providing complete foot support.

PressureGuard® Turn Select Therapeutic Mattresses slowly, gently, and quietly reposition the user at angles up to 30 degrees, with dwell times as short as 1 minute and as long as 2 hours.

## PULSE OXIMETRY

Masimo Signal Extraction Technology pulse oximetry, Masimo SET, represents a fundamental departure from conventional pulse oximetry technologies. Masimo SET substantially overcomes the limitations of conventional pulse oximeters in accurately measuring arterial blood oxygen saturation levels and pulse rates in the presence of patient movement and low perfusion. Numerous clinical studies have demonstrated that the use of Masimo SET, in conjunction with Masimo's sensors, significantly

1. reduces costs,
2. improves patient outcomes, and
3. reduces medical errors.

### Have you attended one of our Clinical Education seminars?

We know that medical innovation is advancing at a faster pace than education. We also know that it is challenging to find time to take advantage of the limited education that is available. SOURCE MEDICAL can provide a solution to these issues. We host education seminars right across Canada that are conveniently arranged to meet your busy schedule. We can also facilitate detailed in-servicing on the latest improvements in products, services, and ministry guidelines. Ask your SOURCE representative for more details.
