

OrderConnect™

What Are Your Ordering Challenges?

This is what we hear:

- It takes too long
- Searching a catalogue or website for product is cumbersome
- It's not exactly the highlight of my day
- I have to write things down and then organize my thoughts when I am ready to order
- I work several “jobs” during my day and have to squeeze in ordering
- Everyone in the clinic writes down what they need and hands me scraps of paper

What Are Your Inventory Challenges?

This is what we hear:

- I run out of product and don't know it until it is needed again
- I order from too many vendors
- I place many small orders during the week
- My inventory is very disorganized, everyone is in there all the time

What If . . .

- . . . there was a way for you to drastically reduce the amount of time you spend preparing your orders?
- . . . you could reduce the order errors thus reducing the handling costs of supplies in your business?
- . . . there was a way for you to consolidate the number of vendors you have to deal with and still save money?
- . . . you could reduce the amount of inventory you carry thus saving you money?

Source Medical's Order Management Solution

OrderConnect™

Replace the pen and paper used to prepare orders today with a small bar code scanner tied directly to sourcemedical.com

Solution Benefits

- **Faster Order Processing**
 - OrderConnect™ customers reduce ordering time by as much as 80%
- **Customized For You**
 - Catalogues, labels and order forms built specifically for the way you purchase supplies making it faster and easier for you to locate the products that need to be ordered
- **Electronic Order Submission**
 - Your orders are automatically submitted to us over the web. No more re-keying of orders into a system
- **More Accurate Orders**
 - No more transposing numbers. Simply scan what you need
 - Verify the order on the website prior to processing
- **Minimize Vendors**
 - Save money on products and the cost of carrying them

Getting Started – For OrderConnect™

- **Identify a PC(s) that will be used to place on-line orders**
 - Any PC running Windows 2000, XP or VISTA
 - An available USB or serial port
- **We install a small piece of software that works with the scanner (takes 3 minutes).**
 - The software allows the scanner, via the cable, to connect to your Sourcemedical.com shopping cart
- **You start scanning – IT'S THAT SIMPLE**
- **Would you like to give it a try?**
